Subject: Notification of Liner Installation at the Waimanalo Gulch Sanitary Landfill,
Kapolei, HI

Dear Mr. Chang:

Pursuant to Part II - Special Conditions, Section B, Provision #8 of the Waimanalo Gulch Sanitary Landfill (WGSL) solid waste permit (number LF-0182-09), this letter serves as the 5-day notification to the State of Hawaii Department of Health that Waste Management of Hawaii has scheduled geosynthetic liner installation for a portion of the Municipal Solid Waste (MSW) Cell E6 to begin on March 25, 2010 at the WGSL, Kapolei, Hawaii.

American Environmental Group, Ltd. is the geosynthetics installer for this project and AECOM Technical Services, Inc is the Construction Quality Assurance (CQA) Engineer. This effort will involve installing and documenting the installation of approximately 65,000 square feet of geosynthetic liner materials for new liner on the western sideslope of MSW Cell E6.

All liner geosynthetics will be installed with CQA oversight by a qualified technician having a minimum of 5 years of appropriate experience, under the supervision of an AECOM professional engineer.

If you have any questions or need more information about this project please call me at (808) 356-5321.

Sincerely yours,

Ronald E. Boyle, P.E.
Project Manager
AECOM Technical Services, Inc.
